

In Accra on 21st January 2015

To whom it may concern,

Befesa Desalination Developments Ghana Limited (BDDG) have employed the services of Mr. Tony Attenborough and Mr. Conor Kenny as Independent Engineer and Lender's Technical Advisor for the 60.000 m³/day DBOOT Seawater Reverse Osmosis Water Treatment project in Teshie/Nungua Accra Ghana (such project is known as "Accra Reverse Osmosis Desalination Plant"). These services commenced in February 2013 and have continued throughout the construction phase of the project, including the Commissioning and Contractual Tests phases, which are expected to be completed in the next month of February 2015. The services will continue into the Operating Phase of the project as an Independent Engineer between BDDG and the Off-Taker.

BDDG is completely satisfied with the services provided by Mr. Tony Attenborough and Mr. Conor Kenny. Their technical knowledge and their good understanding of the whole project have been a key part on the success of the whole project. Moreover, the good relationship between them and all the Stakeholders have helped the approach between the parties for the good of the Project.

Therefore, BDDG would recommend both Mr. Tony Attenborough and Mr. Conor Kenny for similar assignments in the future.

Sincerely yours

Carlos Moreno Álvarez. Technical Manager
BDDG
