To Whom It May Concern

Emirates Steel employed the services of Tony Attenborough between 2009 and 2013 as a Desalination Consultant for the two 13,000 m³/d Seawater Reverse Osmosis desalination plants in Musaffah Industrial Area, Abu Dhabi, UAE. Emirates Steel was entirely satisfied with the services provided by Tony Attenborough, and would be willing to recommend him for future assignments of a similar nature.

Yours Faithfully
