05th November 2011,

To whom it may concern,

Shuqaiq Water and Electricity Company (SqWEC) employed the services of Mr. Tony Attenborough between July, 2007 and November, 2011 as Owner's Engineer for the 212,000 m3/d Seawater Reverse Osmosis desalination project in Shuqaiq, Saudi Arabia. SqWEC was entirely satisfied with the services provided by Tony Attenborough, and would be willing to recommend him for future assignments of a similar nature.

Sincerely,

Young Keun Kim

Project Director of SqWEC
